

# aquaTRAN™

## Idea Sheet

### In-Cabinet Installation

Commercial conference rooms

Residential and commercial kitchens

AquaTran is a practical solution for commercial and residential consumers of five gallon bottles of water. Compact and affordable, AquaTran can be wall-mounted or installed in standard cabinetry.

### Wall-Mount Installation

#### AquaTran Wall-Mount System\* (WMS)

Commercial waiting rooms, employee break rooms and nurses' stations.

Warehouses, plants, factories and other industrial environments.

Gyms

#### Standard Wall-Mount

Walk-in pantries, garages, laundry rooms, pool houses and more.

*\*Ideal for retrofitting AquaTran into commercial and industrial settings. In many cases, the WMS can be installed at the location of the existing water cooler.*
